Docket No: 1370.069US1

REMARKS

Applicant thanks Examiner Stephan Willett for the telephone conversation today, 1/19/06, to discuss the pending claims.

In response the Examiner's suggestions, claims 42 and 45 have been amended to more clearly define a document class by stating the documents within a document class possess similar layouts. Further, language has been added to claims 42 and 45 to more clearly indicate that the methods are automated to distinguish from pure manual operations.

Applicant elected to file a supplemental amendment in place of an Examiner's Amendment.
